Once you have identified the correct branch, please contact the adult in charge of that branch to arrange a meeting at the address above. It is important to establish personal contact with the adult in charge of the branch you or your child will join. You will be provided with a membership application form and other documentation to complete.

Typically, the young person should attend a few meetings as a visitor to make sure they want to join, before initiating the formal process of membership and investiture.

Yours sincerely
